

To reduce the impact of COVID-19 outbreak conditions on businesses, workers, customers, and the public, we have updated our inspection guidelines for all present during the on-site inspection. This includes but not limited to the inspector and contact present for the inspection. Please review before accepting or proceeding with an inspection.

1. All inspectors must adhere to their shelter in place or stay at home orders as issued by your county, city and/or state. Please check your local guidelines prior to proceeding with an on-site inspection.
2. If you are sick or have COVID symptoms do not proceed with an on-site inspection even if it has already been scheduled. Please contact our office immediately to reschedule the appointment.
3. The inspector must bring and wear personal protective equipment (PPE). A face covering is required while performing any on-site inspection.
4. Maintain a minimum of six-foot distance from one another during the on-site inspection.
5. Do not shake hands or engage in any unnecessary physical contact.
6. Frequently wash hands for a least 20 seconds with soap and water or use hand sanitizer.

By accepting this inspection, you agree that:

1. You are NOT currently sick or have any COVID symptoms.
2. You have NOT had close contact (within 6 feet/2 meters for than 15 minutes) with anyone who is either confirmed or suspected of having COVID-19, in the last 14 days, including anyone who is experiencing or displaying any of the known symptoms of COVID-19.
3. You have NOT tested positive or have been tested and are awaiting the results for COVID-19 in the last 14 days.

If you cannot agree that all the above statements are true, you may NOT accept the on-site inspection order.
